

ASWIN CHETTRI

Lower Daragaon, Tadong, Gangtok – 737102, Sikkim | +91 8768943377
aswinkchettri@gmail.com | linkedin.com/in/aswinchettri | github.com/AswinCheDev | aswinchettri.me

PROFILE SUMMARY

Full-stack developer and MCA student with experience in building scalable microservices and AI/ML-powered web applications. Currently developing analytics and AI/ML monitoring systems at Euphoria GenX using FastAPI, and machine learning models.

EDUCATION

Sikkim Manipal Institute of Technology Masters of Computer Applications – CGPA 7/10 (1st Year)	2024 – 2026 (Pursuing)
Sikkim Manipal Institute of Technology Bachelor of Computer Applications – CGPA 7.2/10	2021 – 2024
Greendale Senior Secondary School (CBSE XII) – PCB(CS) 72%	2021
Greendale Senior Secondary School (CBSE X) – 73%	2019

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, Java, C++, SQL
Frameworks: React.js, Node.js, Express.js, FastAPI, Flask, Django
Databases: MongoDB, MySQL, Redis
AI/ML: Isolation Forest, Random Forest, Prophet, TensorFlow
Tools: Git, GitHub, Postman, Linux, Thunder Client
Course Work: Machine Learning, Data Science, Cloud Technology, Network Security

INTERNSHIP EXPERIENCE

Full Stack Development Intern <i>Euphoria GenX · GovVision – Digital Decision & Governance Platform</i> Developing the Analytics, Reporting & AI/ML Monitoring module of GovVision using a microservices architecture with Node.js and a Python FastAPI AI service integrating Isolation Forest (anomaly detection), Prophet (forecasting), and Random Forest (risk scoring).	Jan 2026 – Present
--	--------------------

PROJECTS

GovVision – Analytics, Reporting & AI/ML Monitoring Module • Engineered a microservices-based analytics system using Node.js and FastAPI with MongoDB and Redis to process real-time governance data and KPI metrics. • Built frontend components using React.js and TypeScript for analytics dashboards and real-time monitoring interfaces. • Developed ML pipelines using Isolation Forest (anomaly detection), Prophet (time-series forecasting), and Random Forest (risk scoring) to enable proactive governance insights. • Designed and exposed REST APIs for KPI aggregation, anomaly detection, and reporting workflows with low-latency data access.	Jan 2026 – Present
ValueScout – AI-Driven Smart Shopping Platform • Developed an e-commerce aggregator using Node.js and Python (BeautifulSoup) to scrape and consolidate 1000+ product listings/day from Amazon and Flipkart. • Built frontend using React.js and JavaScript for product search, comparison, and user interaction flows. • Implemented an AI-based recommendation system using CLIP for personalized outfit suggestions based on visual similarity. • Designed a price-drop alert system with automated email notifications and scheduled background jobs for continuous monitoring.	Aug 2025 – Nov 2025

CERTIFICATIONS & LEADERSHIP EXPERIENCES

Vice President Computer Applications Student Society (CASS), SMIT Led a committee of 10 members to plan and execute over 8 major events for a department of more than 250 students.	2025
Vice School Captain Greendale Senior Secondary School Complete Web Development Course by Hitesh Choudhary Technologies Learned: HTML, CSS, Tailwind CSS, JavaScript, React, Node.js, Express, MongoDB, PostgreSQL, TensorFlow.js, Git	2020
